Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at River Junction she was brought down with pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last for hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at W. H. Styer's Drug Store. Regular size 50c. and \$1.00.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alternative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness yield to Electric Bitters. 50c and \$1.00 per bottle at Styer's Drug Store.

IN a young girl's life there comes a time when the careless innocence of childhood changes to the modest blushing maidenly self-consciousness of approaching maturity. The eye is brighter; the form is rounder; there is a touch of shy coquetry in the glance—the girl has become a woman. She has entered that critical period so full of happy possibilities, yet so hedged about with the physical sufferings and dangers peculiar to her sex. It has been said that to be a woman is to suffer. Too often this is true. A woman's whole nature is so bound up in the special functions of her womanhood that any disturbance of this sensitive organism throws the whole system out of harmony. "Female weakness" causes nine-tenths of all the wretchedness which women endure. It can never be permanently relieved by "local treatments." That is generally an expensive, embarrassing, useless, make-shift. What is needed is Dr. Pierce's Favorite Prescription to reach the innermost sources of the trouble and restore health and strength directly to the internal organs. This stops the weakening drains which sap life's foundation; heals all ulcerated conditions, gives the ligaments elastic power of themselves to correct misplacement of internal organs and imparts tone, vigor and vitality to the entire feminine organism. In a word the "Favorite Prescription" makes healthy, happy women. Dr. Pierce is the Chief Consulting Physician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. He has made a life-study of women's peculiar ailments. Over ninety pages of his great work, "The People's Common Sense Medical Adviser," are devoted to the consideration of diseases peculiar to women. Successful means of home-treatment are therein suggested, making it unnecessary to employ a physician, or to submit to his "examinations" and the stereotyped, but generally useless, "local treatment." Twenty-one (21) one-cent stamps, to cover cost of mailing only, will bring a copy of this useful book. Address: World's Dispensary Medical Association, Buffalo, N. Y.

A COMMON MISQUOTATION.

Our Orators Should Read the Declaration of Independence Again.

Probably three out of four Fourth of July orators in their speeches this year quoted the Declaration of Independence as claiming that: "All men are created free and equal." The mistake has been common in the past and it is as prevalent now as ever. Presidents of the United States, members of congress, governors and a host of lesser lights have made the blunder, and to their number can be added editors and distinguished orators like the late Henry Ward Beecher. Nevertheless, the Declaration does not say that "all men are created free and equal," and it would not be true if it did. No person is created free. He or she is subject for years to the control of parents or guardians, and natural laws recognize this subjection as right. What the Declaration does say is that: "All men are created equal." There may be some dissent from that doctrine, as there is an evident difference among men in mental and physical endowment at birth. But while the Declaration of Independence is quoted as saying they are, it had better be quoted correctly.
